Floodlight FL 21

Reliable as always.
Flexible and smart like never before.

Limitless flexibility.

Parks, industrial sites, sport halls and small outdoor athletic facilities. Floodlight FL 21, the newest generation of our popular family of floodlights, reliably performs its job day in and day out – and it does so in the most flexible, smart and environmentally conscious manner ever.

Three sizes, a range of connection options, refined product design and brand new control options with SITECO iQ make it all happen. The result is smart, intelligent light that delivers the maximum performance necessary to meet your very special needs.

Floodlight FL 21 – the trailblazing multi-talent with the high iQ!

Flexible light concept

Wide area of light distributions and light colors that come in the insect-friendly range of 2,200K to 5,700K

Strong family

Flexible concept that comes in three model sizes and packages of 3,000 to 40,000 lumens

New control options – smart and comfortable

DALI and Multi-Lumen models are now available, as well as Smart Interface and SITECO iQ

Flexible installation? You bet.

Robust chameleon

Multi-faceted use with IP66, along with ball-impact resistance and swimming-pool suitability*

NEW: Including two cable glands for the model sizes mini and midi

Sustainable product design

"Green" light with exchangeable components (LED module + ECG) and a glass cover with seal for single-type separation

Mounting bracket or design bracket?
How do two floodlights on one mast sound to you? The installation options of the Floodlight FL 21 are boundless.

Project: Munich airport

Project: Skatepark Ibbenbüren

Professionals need no limits.

From enabling passengers to quickly get their bearings in the airport terminal to helping skaters enjoy safe outings in the evening – the Floodlight FL 21 cuts a fine figure everywhere. It is up for the task. And there is no secret why: It is a safety officer, a quick-change artist, a kilowatt-pinching energy user, an environmentalist and an aesthete all wrapped up into one.
